

THE PRO TRADERS' 12 POINT CHECKLIST HOW TO INVEST IN SHARES

This checklist has been designed to help you enjoy stress free trading and investing by helping you have the right answers when it comes to how to invest in shares.

Having the right answers, or at least an answer to these core questions will help you make better, more confident decisions for each and every trade that you take, after all, when the process is right, the results always follow!

1. What is your view on the stock?

2. Why is this your view on the stock?

3. When are you taking the trade?

4. What is your entry price?

5. What is your profit taking level?

6. What is your Stop Loss level?

7. What quantity of shares are you buying?

8. What cash amount will you need for this investment?

9. What percentage of your investment capital will this trade represent?

10. If you are going to add to this position, at what price?

11. What is your overall expected gross return?

12. What potential dollar risk is this trade?
